

DATE SET FOR COUNCIL COURT OF REVISION

Will be Held Monday, Nov. 13th—Council Authorizes Borrowing of \$30,000 for Current Expenditures

The regular meeting of the town council was held last Monday evening. Mayor Bott was in the chair and the following members present: Councilors Lavelle, McLean, Oates and Crowe.

The minutes of a special meeting held last week were read and adopted. This special meeting was held for the purpose of reviewing the financial condition of the town.

Engineer Ackwith in reporting to the council regarding grades on streets said that the town profile on file contained the information required. The public works committee was appointed a standing committee to adjust any complaints which might arise in future along this line.

A bylaw authorizing the mayor and treasurer to borrow \$30,000 from the Royal Bank for current expenditures was given its several readings and passed.

The date for the court of revision was set for Monday, Nov. 13th at 9 o'clock in the evening.

The mayor and secretary were appointed to make arrangements for the purchase of a filing cabinet.

Letters were read from applicants for town lots owned by the town. The non-payment of taxes and the secretary was instructed to accept the offers subject to the approval of the minister of municipalities.

A letter was read from the manager of the Imperial bank asking the council if they would take steps to have the debris on the lot adjoining the bank building here removed, as it was the intention of the bank to have their building removed and was prevented from doing so on account of this debris.

The school board wrote the council asking that they have the sidewalk up to the school on the east side, repaired as it is now inconvenient for children to get to school.

The school board also was asking for funds to meet debt service payments. The amount asked for was \$5,000 to be paid before the end of November. The matter was referred to the finance committee.

Councillor Lavelle introduced the question of equipment at the pumping plant and said he understood Medicine Hat had a steam engine which was in good condition, for sale. He was in favor of installing a steam engine in the pumping station if any improvements in the plant were to be made. There might be some objection to steam, he said, as it is more expensive to keep up when fuel has to be purchased. But here where our natural gas makes it possible to develop power at the rate of \$2.50 per horse power per annum, as compared with from \$24.00 to \$40.00 in other places not so fortunate, he did not think this argument applied. He would be in favor of appointing a committee to examine the engine in the Hat and if satisfactory that it be purchased.

The mayor, Councilors Lavelle and Crowe, and Engineer Ackwith, announced a committee to investigate Canadian War Orders.

Now \$500,000,000
Munition orders placed in Canada since the outbreak of the war amount to \$380,000,000. An order for munitions to the value of \$60,000,000 has just been received, and contracts for that amount are to be placed. Since the first of the year orders have been placed amounting in value to \$185,000,000.

These figures have been announced by the Imperial Munitions Board. During the months of July and August the output from Canadian industries was interrupted by reason of the difficulty experienced in procuring the necessary steel and forgings. Due to the efforts put forth by manufacturers, the output of most manufactures is more satisfactory and increasing in volume each week.

Redcliff Organizes For Patriotic Fund

A meeting was held in Alderson last Saturday for the purpose of organizing Redcliff constituency into committees to arrange for the soliciting of subscriptions for the Patriotic Fund. Capt. C. S. Pingle, M. P., for this constituency, is responsible for this organization, and he was present at the meeting.

It was decided to make Alderson headquarters for this organization and the following officers were elected by the Alderson people present at the meeting.

Hon. President—Capt. Pingle, M. P.
President—Dr. S. F. McEwen, Alderson.
Vice-President—Mayor H. J. Dott, Redcliff.
Sec.-Treas.—Rev. T. Taylor, Alderson.

Committee—A. J. Drummond, Alderson; J. C. Reed, Salford; W. H. Hatcher, Redcliff; Martin Ohman, Idington; E. W. White, Jemmer; M. A. Haggart, Empress; M. Schuler, Schuler P. O.

The organization of local committees will start immediately and every school house will be made the center for patriotic effort. Five thousand dollars is the mark set for the riding.

Demonstration Farm Makes Good Showing

Harvesting operation at the Experimental farm just east of town are now completed and the product of this farm has been most satisfactory.

The crop averaged 81 bushels to the acre and would have been considerably higher if the grain had not been put down in spots by stormy weather. The alfalfa crop also showed a big improvement over last year. The roots got down further this year and a result almost twice as much was cut as a year ago. In some places three crops were cut.

The established stand of alfalfa on the farm is about twenty acres. The yield in thirty light rows. The yield in thirty light rows. The yield in thirty light rows.

The school board wrote the council asking that they have the sidewalk up to the school on the east side, repaired as it is now inconvenient for children to get to school.

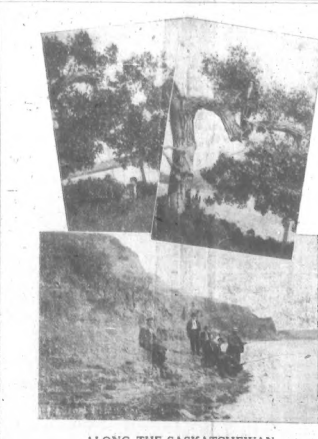

The school board also was asking for funds to meet debt service payments. The amount asked for was \$5,000 to be paid before the end of November. The matter was referred to the finance committee.

Councillor Lavelle introduced the question of equipment at the pumping plant and said he understood Medicine Hat had a steam engine which was in good condition, for sale. Old Redcliff Boy Gets Real Canadian Wedding in Britain

On Wednesday, August 30th, at St. Mildred, Cannon street, London, E. C., by the Rev. Canon Glendinning Nash, M. A., the marriage of Julian Maule Alexander, second daughter of Charles Napier Alexander and Mrs. Alexander, of Bear Oak Park, London, to Guy Torbett (First Canadian Expeditionary Force) Naal, British Columbia, third son of Mr. Henry Torbett and Mrs. Torbett of Redcliff, was solemnized.

The service was fully choral, the hymn "Lead Us Heavenly Father" was sung as the bride entered the church, and the anthem "How Divine" during the signing of the register, and the Canadian national anthem, "O Canada" was sung by the choir and sounded very stirring with the organ and drama.

The bride was given away by her father. She carried a bouquet of lilac carnations, white heather and maple leaves.

The ceremony was very quiet owing to the illness of the bride's and bridegroom's mothers, who were both unable to attend, but the church was crowded in spite of the very inclement weather.

Amongst many useful presents was a very beautiful and large silver tray presented to the bridegroom by the non-commissioned officers and men of the Canadian Expeditionary force.

The honeymoon was spent on the east coast. Mr. Torbett is an old Redcliff boy and while here was employed in the Imperial bank.

Recruiting in Canada For the British Navy

Hon. Rupert Guinness, who is recruiting men in Canada for the British navy, will be in Medicine Hat on Nov. 2nd.

Capt. Guinness says the result of the opening days of the campaign give good promise that the west will supply its full quota to the total number required. Five months after enlistment the western recruits may expect to be doing his job on one of Admiral Jellicoe's ships in the North Sea.

Harvard Professor Is Called a Spy

Prof. Hugo Maerberg, of Harvard, was called a "high class German spy" by Theodore Stanton, son of Elizabeth Cady Stanton, in an address before the Evesleigh Century club.

He has evidence to prove that this professor ought to be turned out of Harvard. If I had any influence with the trustees of that university I would bring to their knowledge what he has done, and what he is doing for Germany as a spy.

St. Ambrose W. A. Hold Social Evening

The whilst drive and social evening given by the W. A. of St. Ambrose church last Monday evening, was a great success from every standpoint. The parish hall was packed to its limit to accommodate the crowd which was made up mostly of young people. The refreshments which were the first item on the program and it proved most interesting indeed. Frank Baird, who was the first prize on the occasion, won the ladies first prize and Mrs. Conley the 1st prize. The 2nd prize was the 1st prize and C. O'Fallon the 2nd prize. After the distribution of these prizes Geo. Werts took the stand and with hammer in hand proceeded to auction off the fruit and vegetable produce for the thanksgiving decorations in the church. As George is in the habit of giving stuff away he did not have the heart to ask for big prices. Consequently there was not as much realized on the sale as there otherwise would have been.

Following the sale refreshments were served, after which the floor was cleared and a most enjoyable evening brought a very successful evening to a close.

Another important contribution to the discussion on peace was made by Vincent Gray, secretary of state for foreign affairs, at a luncheon given by the Foreign Press association, at which the diplomatic representatives of all the allied countries were present.

The foreign secretary made it plain that the allies were not prepared to discuss peace terms, and gave no indication of what their terms might be. But welcomed any efforts by neutral countries for a combination to prevent future wars.

Of the necessity of "freeing the world from the oppression of Prussian militarism," he said: "We know that if mankind has any bright light it is that of peace and liberty, and it is for that we are fighting. When we are asked how long the struggle is to continue we can only reply that it must continue until these things are secured."

French and German artillery forces are busy south of the Somme, where an artillery duel raged in the Hims. When we are asked how long the struggle is to continue we can only reply that it must continue until these things are secured."

French and German artillery forces are busy south of the Somme, where an artillery duel raged in the Hims. When we are asked how long the struggle is to continue we can only reply that it must continue until these things are secured."

British and French Start Week Well

The British and French started out this week most encouraging on the western front. The British scored striking success in their operations on the Somme where considerable ground was gained and over 1,000 prisoners captured. On a front of 5,000 yards, the French captured a wood north of Chaulnes and in fierce fighting inflicted heavy casualties on the enemy who drove assaults at several points of the Somme line.

The Germans spring two mines south of Ypres, near St. Eloi. Berlin is in a state of confusion. The French captured a wood north of Chaulnes and in fierce fighting inflicted heavy casualties on the enemy who drove assaults at several points of the Somme line.

Austria Now Calling Old Men and Boys

Startling information obtained from the Rome war office reveals the critical state of the Austria-Hungarian military reserves. Up to the end of April last Austria had called only 1,400,000 men. Only 3,000,000 including 300,000 in training are available.

The Austria-Hungary has already incorporated in the fighting army all men able to bear arms between the ages of 18 to 50, and also has mobilized for auxiliary service all men between 51 and 55. Thus today the dual monarchy can use only 5,000,000 men. It is at this time that the source of the outbreak had been traced. The outbreak affected was the 1917th.

The outbreak affected was the 1917th. The outbreak affected was the 1917th. The outbreak affected was the 1917th.

APPEALS TO PEOPLE FOR RENEWED AID

Canada's Premier Asks Men And Women to Increase Their Efforts and Aid in Prosecution of the War

Sir Robert Borden issued an appeal to the people of Canada, both men and women, to increase their efforts and aid in the prosecution of the war, and to the people to assist and co-operate with the government and the national service commission in the work to be undertaken by that body.

After reviewing conditions as they existed at the commencement of the war and comparing them with present conditions the premier says: "Under the responsibilities with which I am invested, and in the name of the people of Canada, I appeal to you, to serve, it is my duty to appeal, and I do now appeal most earnestly to the people of Canada that they assist and co-operate with the government and the directors of national service in the endeavor for this purpose. To men of military age I make the appeal that they place themselves at the service of the state for military duty. To all others I make the appeal that they place themselves freely at the disposition of their country for such service as they are desirous to report excepting in military service."

"The last hundred days of the war have been the most trying in the history of the world. The last hundred days of the war have been the most trying in the history of the world. The last hundred days of the war have been the most trying in the history of the world."

"The last hundred days of the war have been the most trying in the history of the world. The last hundred days of the war have been the most trying in the history of the world. The last hundred days of the war have been the most trying in the history of the world."

Says 200 German Subs Have Been Sunk

Maximilian Harden's weekly, Die Zukunft, has once more suffered suppression for speaking too openly, and is not improbable that other journals will share its fate. In effect, they revealed that since the British navy began seriously to operate against the undersea menace, 200 German submarines have been destroyed. On the other hand, out of seven Zeppelins, which sought to reach London and failed, four have been destroyed. These are strong arguments for the chancellor's anti-fightless campaign.

Third Year of War Will be the Worst

"We are only at the beginning of the third year of the war," said General Galetti, Maltese, division commander under General Joffre in the battle of the Somme, in which the British made their first great victory. The antagonism displayed by the rival forces is such that only the destruction of one by the other can end the war.

"France must be prepared for a third year of war, which will be more terrible for the French than the first two. But it will be the last we hope. If the allies efforts are guided by one hand throughout, and if they throw all their force into preparation for it, they will be able to deliver the supreme blow."

A prime fire started on the vacant lot just south of Broadway yesterday and for the timely arrival of Mayor Bott and W. T. Lockwood it might have been a bad day for the city. After getting the blaze under control the two men stayed with it till the whole lot was burned off.

THE EXPERIMENTAL FARM

According to statements made in the annual report of the Department of Agriculture, the experimental farm just east of this town has been doing some excellent work during the past year, and in some respects is making the best showing of any similar farm in the province.

It has often been said that one has to gawp from home to get the news of his district, and this appears to be the case so far as our experimental farm is concerned. Although this farm has been doing business in the same stand for some time it appears to be very little if any good to farmers of the surrounding district.

No doubt numerous tests and experiments are being successfully made on this farm, but unless the information gained by these tests and experiments is passed on to those for whom it was intended, what good is it all.

This fact has been brought to our attention several times by farmers of the surrounding district, who say they are deriving absolutely no good from the farm as the result of the experiments is never made known to them.

The Review knows it is very easy to find fault but it is not so easy to suggest a remedy. However in this case we think we have a remedy. Why not, during the summer months when work on the farm is slack have a day, or days, set aside and advertised, for farmers to visit this farm. On these occasions those responsible for the running of the experimental farm could address the farmers along lines of interest to them. In this way the result of the experiments could be made known to them and they could see for themselves by going "over the farm" just how they work out. Now that mixed farming is being so strongly advocated by our governments, addresses along this line, and the raising of cattle, horses, poultry and hogs could also be very nicely worked in.

If these days were arranged during the summer months they could also serve as a picnic day for the farmer and his family, when pleasure and business could be combined.

THE STRIKE AVERTED.

The settlement of the differences between the C. P. R. company and its employees, even coming as it does at the eleventh hour, clears the atmosphere of what otherwise was beginning to look like a serious time ahead for Canada.

The tying up of traffic on a railroad like the C. P. R. stretching as it does from one end of Canada to the other, and with its network of branch lines supplying daily provisions for hundreds of towns and cities, would be a serious situation at any time. The possibility of such a tie-up would be a circumstance which would call for drastic measures to avoid it even under normal conditions, and much more so at the present time when this railroad and its employees are of such valuable service to the empire. That a settlement was reached and a strike averted without having to resort to any such drastic measures,

speaks volumes for the loyalty of all concerned.

It is not known at this time just how the settlement was reached but it is only reasonable to assume that there was some give and take on both sides. If, under the circumstances, one side had been for all take on a strike at this time, then that side would have been looked upon as the "Sin Finners" of Canada. But they didn't. The whole thing ended just as we all thought it would, so what is the use.

WILSON'S CHANCES.

As the presidential election in the United States draws nearer President Wilson's chances for re-election are growing better, it is one to judge from sentiments expressed in the press and by those who have recently come from across the line.

At the commencement of the campaign Hughes was a strong favorite among the betting fraternity and his backers were giving big odds. This was only natural, as the Republican party usually has the support of money and financial interests. Even with this backing the odds on Hughes are now dwindling down. Again Mr. Hughes' tour through the country appears to have been a failure and a disappointment to his friends. He has advocated no new policies and on the whole his speeches have not had the steam and vote catching power behind them which have been characteristic of all President Wilson's public utterances.

Then there is Roosevelt. Although badly disfigured Teddy is still in the ring for Hughes, which really means that he is working for Wilson.

On the whole it looks from this distance that Wilson's chances for re-election grow brighter as the eventful day draws nearer.

The formation of an inter-provincial trade betterment commission was proposed to the Ontario business in the address of welcome presented by the citizens of Three Rivers, during the recent trip of business men of the two provinces, Ontario and Quebec. To our mind one of the best ways to encourage interprovincial trade is to have freight rates so arranged that it will not cost as much to get goods from an adjoining province as it does to get the same goods from the most remote province in the Dominion. In some instances that is the case now and it is greatly retarding interprovincial trade in the western provinces.

John Bright, live stock commissioner for the Dominion government, sounds a note of advice to Canadian farmers when he points to what conditions will be at the close of the war. He says Canada should be in a position to corner the cattle trade when the proper time comes, and points out that now is the time to get ready for it. Farmers should take advantage of every opportunity to build up their herds now as there is no doubt all Europe will look to this continent for its live stock and meat supply for long after peace terms are signed.

Twenty years ago wheat was selling for 40c and 50c a bushel. Naturally there is not much sale now-a-days around here for that once popular song: "My boyhood happy days down on the farm."

With wheat \$2.00 a bushel, Sunny Southern Alberta will make the Yukon in its palmest days look like a salmon sandwich at a five o'clock tea. Germany has lost \$5,000,000 in trade since the war began. The cause of this loss might also be labelled "Made in Germany."

In looking over a table giving the price of all kinds of farm produce in the different cities in Canada and comparing them with prices in United States cities, we notice that for every article except potatoes the prices are lower in United States cities than in Canada. That hundred million market to the south of us, of which we heard so much a few years ago wouldn't be much good to the Canadian farmer just now.

Citizens whose homes are surrounded by a heavy growth of bristly grass would do well to take advantage of the first mild day and burn it off. Before doing so, however, precaution should be taken to see that you have enough help on hand, to keep the fire well under control. Burning this grass off now might save serious loss later on.

With threshing now in full swing and with the great possibility of serious prairie fires, farmers should take extra precautions to see that their granaries are well protected and fire guarded. Straw piles thrown up against the granaries are very dangerous at any time, but more especially so just now.

When a country is at war its line of credit usually decreases in the money markets. Especially so if that country's chances of winning out are in doubt. Britain is placing another loan in the United States for 250 or 300 million dollars and it is being picked up at 99. This ought to be a fair indication of what the American capitalist think of Britain's chances in this war.

Down in Chicago hold-up-men killed a newspaper man expecting to get rich lot. Now that's the worst of belonging to a profession with a good reputation. If that newspaper man had been in some other business he might have been reasonably safe of protection because of the old belief that there is "honor among thieves."

CHURCH NOTICES

FIRST BAPTIST CHURCH.

Rev. F. T. White, Sunday school at 10 a. m. Morning service at 11 a. m., subject, "Great Expectations." Children's service at 2 p. m. Evening service at 7:30 p. m., subject, "Preventing Purty." Tuesday—Hour of social worship at 8 p. m.

THE PRESBYTERIAN CHURCH.

"Following Our Redeemer." Will be the subject of the sermon at 11 o'clock forenoon. At 7:30 evening the sermon will treat of "After Death." All seats are free.

Sabbath school at a quarter past two.

Divine worship at Brezelslaw at three.

Prayer service on Wednesday evening at 8.

The Ladies' Aid tea Monday afternoon; meeting to work Thursday at three.

CHURCH OF ENGLAND.

Friday—Evensong and intercession.

7:30. Choir practice at 8.

Sunday—Holy communion at 8; matins at 11. Sunday school at 9:30.

Evangelical service, 3:30. Evensong and anthem, 7:30.

Monday—Julius W. A. at 4:15.

Wednesday—All Saints Day. Holy communion 7:30 a. m.; matins 9:30. Evensong 7:30. W. A. at 9 o'clock at Mrs. Ferguson's.

THE UNION TRIBLE CLASS.

The Class meets on Sunday at half past three for the free study of the Bible, in the Presbyterian church. Next Sabbath the lesson is "Bible-wrecked on Malta." Acts 27:38-44.

HEAVY CASUALTIES.

FOR LAST WEEK.

Last week and casualty lists show the names of 321 officers, of whom 104 are dead, and 7,582 men, including over 2,600 overseas troops, of whom 1,767 are dead. The chief regiments suffering are the London regiment, Somerset Light Infantry, King's Royal Rifle Corps, Coldstream Guards, Duke of Cornwall's Light Infantry, Argyll and Sutherland Highlanders, Sussex, Hampshire, Rifle Brigade, Highland Light Infantry, and the Buffs.

French Do Good

Day's Work Near Verdun

Switching their offensive from the Somme region in France, possibly as a counter to the advance of the Teutonic allies in Dobruja region of Rumania, the French have smashed at the German line north and north-east of Verdun over a front of four and one-third miles, penetrating in some places to the center, and along a distance of nearly two miles.

Preceded by a violent bombardment, such as marked the great attacks and counter-attacks during the days when the Verdun operations were of world interest, the offensive was delivered approximately from the eastern bank of the Meuse river, near the town of Verdun, and the fort of Douaumont, in the center, were in the hands of the French, while on their left wing the French had pushed beyond Thiaumont, and captured the Haumont quarry and taken possession along the Braumont road. On their right wing considerable progress had also been made from Douaumont to Damblon, where more than 2,000 prisoners and quantities of war material were captured by the French.

Military experts in London point out that the French coup at Verdun has regained virtually all the ground lost in the second battle of Verdun. This was accomplished with lightning suddenness, in a single day, whereas the German occupied nearly two months in sweeping this ground from the French.

The Ministerial Association of Calgary is now on record as approving the stand of the Government of the Canadian Pacific railway in their demands for a better schedule and better working conditions.

To Investors

THOSE WHO, FROM TIME TO TIME, HAVE FUNDS REQUIRING INVESTMENT, MAY PURCHASE AT PAR

DOMINION OF CANADA DEBENTURE STOCK.

IN SUMS OF \$500 OR ANY MULTIPLE THEREOF.

Principal repayable 1st October, 1919.

Interest payable all-yearly, 1st April and 1st October by cheque (free of exchange at any chartered Bank in Canada) at the rate of five per cent annum from the date of purchase.

Holders of this stock shall have the privilege of surrendering at par and accrued interest, as the equivalent of cash, in payment of any allotment made under any future war loan issue in Canada other than an issue of Treasury Bills or other like short date security.

Proceeds of this stock are for war purposes only.

A commission of one-quarter of one per cent will be allowed to recognized bond and stock brokers on allotments made in respect of applications for this stock which bear their stamp.

For application forms apply to the Deputy Minister of Finance, Ottawa.

DEPARTMENT OF FINANCE, OTTAWA, OCTOBER 16, 1916.

TOWN OF REDCLIFF.

REVISION OF VOTERS' LIST.

The Voters' List of the Town of Redcliff is now completed, and may be inspected at the office of the Secretary-Treasurer between the hours of 9 a. m. and 5 p. m.

Any person having the necessary qualification and whose name has been omitted from the list, is requested to immediately make application to this office, in order that his or her name may be added.

F. H. COURTNELL, Secretary-Treasurer.

SAYS CANADA CAN

CORN CATTLE TRADE.

Get Canada all set to jump in and corner the cattle-trade at the end of the war, by bolstering the farmer financially now, that he may have an adequate stock of cattle in hand and be ready to stand up to big demands.

This was the advice of John Bright, livestock commissioner to the Dominion's royal commission.

"With the war exterminating European cattle," he said, "the whole world is looking to this continent for its support in the years to come. There is no reason why Canada cannot be prepared to get the big part of the trade if she is ready."

Germany is about to repatriate 10,000 Italian civilians, who are unfit for military service, and who have been interned in Germany. It is said that the German authorities lack the means of feeding these prisoners, and will send them home by way of Chicago.

F. W. Fowler, of the school staff, is organizing a cadet corps among the school boys.

Blundell's have just received another shipment of Columbia records. Come on and hear them played.

A business meeting of St. Ambrose W. A. will be held at the home of Mrs. Ferguson next Wednesday afternoon at 3 o'clock.

The Suffield fair was held on Tuesday and Wednesday of this week. Despite the cold weather the fair was quite a success.

WANTED—To rent by experienced farmer, improved farm, with horses and implements. Apply to Box B. Review office.

All school teachers are attending the convention in the Hat today and tomorrow the school will be closed for the balance of this week.

A quarter section of land not far from Redcliff was sold last spring for \$2,000. The same quarter section yielded \$7,000 worth of wheat this year.

Next Tuesday evening will, no doubt, be observed as halloons. Have all the real fun you can, boys, but don't get gay. Damaging property is not a halloon's prank. That's rawdym.

Mr. and Mrs. Geo. Lydell, and family were in Winnipeg on a visit this week, but had to return home sooner than they expected on account of the threatened strike on the C. P. R.

The Brick & Coal plant here has been very busy lately. A gang of men has been at work all week making brick and the coal mine is kept busy trying to keep up to the orders which are daily coming in. Some difficulty is experienced in getting enough men for the mine.

F. Bending, who has a farm just west of town, lost his fine big touring car last Friday. He mutated to Seven Persons and as he intended staying over night he put the car in a livery barn. During the night the barn caught fire and the car was totally destroyed.

Conservative papers are predicting a provincial election this fall and Liberal papers are as persistent in predicting a Dominion election also this fall. So far neither government has given any notice that such is the case. It is hardly probable that there will be a Dominion election until next fall at least, but judging from activities throughout the province it would not be surprising if a provincial election were announced any day now.

Last night about 10,30 four young ladies in town who were out for a time, took possession of a car which was standing on Broadway intending to go for a ride. Unfortunately for the girls the car had some new device attached which they could not operate. While trying to solve the machinery problem the owner of the car arrived. Being a bachelor, he felt quite embarrassed and did not know whether to smile or frown. One of the ladies, however, shot a few of quids darts at him and was successful in getting the whole party out of an embarrassing predicament. The owner of the car took the girls for a ride and now everything is lovely.

False Faces and all kinds of Hallows' novelties at Blundell's.

For the first time in history when reached 3,000 a bushel into Minneapolis last Monday.

A Manitoba exchange says the move has put a stop to stock thrashing for the year.

W. M. Martin, M. P. for Regina, has been chosen as premier of Saskatchewan to succeed Hon. Walter Scott, who has resigned owing to ill health.

With wheat at its present and with the large yield around here this year, our farmers are practically pulling down three crops in one this year.

The average yield of wheat in Alberta this season will be well over 30 bushels to the acre, according to returns so far received.

The Presbyterian Ladies' Aid will give a tea in the church on Monday next, Oct. 30th. Tea served from 3 to 6:30 at 15c.

The special collection taken by the Red Cross Society last Saturday amounted to \$2,111. Boxes were placed in the stores and public places for the convenience of the public.

On Saturday the Baptist Ladies' Aid will hold an agate and home basting sale. Afternoon tea, at Mrs. Washburn's restaurant, Second street, from 2 till 6 p.m.

Capt. C. S. Pingle, M. P. P. for constituency, was in town last Saturday for a few hours on his way through this district to organize for the patriotic fund.

Spiroela corsets and Brasiers; sanitary, comfortable and stylish; guaranteed for 12 months; made to suit and improves any figure. Sole agent, Mrs. Blundell, Broadway, phone 20.

Geo. Gibson, who has a farm about forty miles north of here, visited this week stating that his granary containing twelve hundred bushels of this year's wheat was destroyed by fire.

E. R. Fairbairn, of Brooks, spent last week and in town visiting his parents. Mr. and Mrs. W. J. Fairbairn, of Brooks, spent a few days last week in Medicine Hat visiting friends.

Although very little has been heard of the Alberta oil fields lately, the Presidential Company has evidently been keeping the drill going and now announces that the well was 'shot' last Sunday. They now report the well a commercial producer.

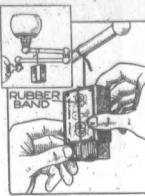

When you buy a disc machine buy a Victor. Get it at the drug store.

M. H. Bedford, of the Imperial bank staff, returned this week from the Peace river district where he was spending his holidays. Mr. Bedford went as far as Grand Prairie and is greatly impressed with the possibilities for that country. On his way up his train was held up by a big bear on the track.

The secretary of the Red Cross Society is in receipt of a letter from the central organization, congratulating this branch on the most satisfactory annual statement forwarded. The local branch was also praised for the great amount of work done during the year, and was reminded of the great need in increased activities during the coming year.

WANTED—Men and women, canvassing experience preferred, to retail Rawleigh's medicines toilet articles, extracts, spices, stock remedies, poultry supplies, for city and town trade. Largest line, greatest variety, lowest prices known anywhere. Terms cash or time. Backed by four million dollar concern. Address The W. T. Rawleigh Co., Ltd., 1025 Gurnell st., Winnipeg, Man., giving age, occupation, references.

Match "A's" on Gas Picture

Plugging matches in the dark in order to light a gas picture is often a trying experience. Suspending a match safe from the picture, as shown in the illustration, solves the difficulty. The match box is suspended around it. While the matches are being withdrawn the box is held open, and as soon as it is released the hand closes it. This makes it safe to strike the match since the box will not strike the gas picture.

Watch Steering Gear

One's life depends upon the stability of the steering mechanism of the automobile. Two great dangers cannot be laid upon the necessity for a careful inspection of these parts at regular intervals. Between the steering control and wheel there are numerous connections, any one of which, if defective, might prove disastrous. It is an unnecessary hardship to inspect the front wheel bearings also at times when the general inspection is being made.

Why You See Two Sides

If you spin a quarter and watch it you will see both sides of the coin at the same time. This is explained by the fact that the motion of the coin retains impressions a little time. It is, indeed, the explanation of many pictures. Your vision persists and your conception of objects is continued after the object itself has disappeared. This allows you to see two parts of a film—even such opposites as the front and back—simultaneously.

Western Rose Border

To get interest in the rose border in Alberta during the early part of the season, before the roses are in bloom, groups of tulips may be planted amongst the bushes with a border of scilla, anemones along the front, and gladioli and carnations are also very effective in the same place as the tulips, these flowering later in the season.

W. Cross, formerly of Winnipeg, has taken over the barber business in connection with E. J. Crowe's tobacco store and billiard rooms. Mr. Cross has had several years experience both in the old country and in Canada.

The suggestion we made last week about farmers assisting the Red Cross here is meeting with the hearty approval of the farmers themselves. Several have already called at this office and signified their willingness to help in every possible way.
